Donn

In our litigation we are required to produce copies of all of our correspondence with the EPA to the RPs in a timely manner (within a day or so of sending them). So, the RPs will have the letter we are sending to the NRRB almost as quickly as your agency.

So we can head off any dissembling about what the letter says, we are going to issue a press release tomorrow about our letter. I wanted you to know about the press release. I believe it is accurate. It does not take any position with respect to the EPA.

I will send it to you first thing in the morning.
